Ancient History

This is a subsection under "History."

Key Events This is a paragraph under "Ancient History."

Event Details This is a subparagraph under "Key Events."

語云：知多世事胸襟濶，識透人情眼界寬。知識兩字，由於自己之想象而明，亦由聞人之談論而得也。嘗見街頭巷尾月下燈前，閒坐成群，未嘗無語，但所論多無緊要之事，未足以有補身心。或有談及因果報應，則有聽有不聽焉，且有抽身而去者矣。非言語不通，實事情未得趣也。惟講得有趣，方能入人耳、動人心，而留人餘步矣。善打鼓者，多打鼓邊；善講古者，須談別致。講得深奧，婦孺難知，惟以俗情俗語之說通之，而人皆易曉矣，且津津有味矣。誦讀之暇，採古事數則，有時說起，聽者忘疲。因付之梓人，以備世之好言趣致者。

✂ Mathematical Formulae

Quadratic Formula

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Geometric Summation

$$S_n = a \frac{1 - r^n}{1 - r} \quad \text{for } r \neq 1$$

Definition of e

$$e = \lim_{n \rightarrow \infty} \left(1 + \frac{1}{n}\right)^n$$

Taylor Series for $\sin(x)$ and $\cos(x)$

$$\sin(x) = x - \frac{x^3}{3!} + \frac{x^5}{5!} - \frac{x^7}{7!} + \cdots$$

$$\cos(x) = 1 - \frac{x^2}{2!} + \frac{x^4}{4!} - \frac{x^6}{6!} + \cdots$$

Green's Theorem

$$\oint_C (P dx + Q dy) = \iint_D \left(\frac{\partial Q}{\partial x} - \frac{\partial P}{\partial y} \right) dA$$

Maxwell's Equations

$$\nabla \cdot \mathbf{E} = \frac{\rho}{\epsilon_0} \quad (\text{Gauss's law for electricity})$$

$$\nabla \cdot \mathbf{B} = 0 \quad (\text{Gauss's law for magnetism})$$

$$\nabla \times \mathbf{E} = -\frac{\partial \mathbf{B}}{\partial t} \quad (\text{Faraday's law of induction})$$

$$\nabla \times \mathbf{B} = \mu_0 \mathbf{J} + \mu_0 \epsilon_0 \frac{\partial \mathbf{E}}{\partial t} \quad (\text{Ampère's law with Maxwell's correction})$$

General Theory of Relativity

$$R_{\mu\nu} - \frac{1}{2}g_{\mu\nu}R + g_{\mu\nu}\Lambda = \frac{8\pi G}{c^4}T_{\mu\nu}$$

Gödel's Incompleteness Theorem

Any consistent formal system that is expressive enough to encode arithmetic contains true but unprovable statements.

8 Recitables

I have of late, (but wherefore I know not) lost all my mirth, for-gone all custom of exercises; and indeed, it goes so heavily with my disposition; that this goodly frame the earth, seems to me a sterile promontory; this most excellent canopy the air, look you, this brave o'er hanging firmament, this majestic roof, fretted with golden fire: why, it appeareth no other thing to me, than a foul and pestilent congregation of vapours. What a piece of work is a man, How noble in reason, how infinite in faculty, In form and moving how express and admirable, In action how like an Angel, In apprehension how like a god, The beauty of the world, The paragon of animals. And yet to me, what is this quintessence of dust? Man delights not me; no, nor Woman neither; though by your smiling you seem to say so. This is an English paragraph. It should start with indentation.

這是一個中文段落，應該有縮進。

これは日本語の段落で、インデントがあります。
